**Company Number PQ 118**

## **INTERIM FINANCIAL STATEMENTS**

**For the Six months ended June 30, 2016**

## Nations Trust Bank records a steady performance

Nations Trust Bank closed the first half of the year ending 30<sup>th</sup> June 2016 recording a post-tax profit of LKR 1,278Mn, a relatively slower growth of 2% over the corresponding period. Narrowing of Net Interest Margins (NIM) coupled with unfavourable impact arising from foreign exchange funding SWAPs slowed revenue growth. NIM impact was partly off-set by loan portfolio growth which saw accelerated traction in the 2Q thereby setting the pace for the year 2016.

Net interest income recorded a marginal growth due to the NIM compression as cost of deposits increased at a faster rate than re-pricing of loans. The resultant increase in interest expense of 39% over the previous period was only partly offset by the increase in interest income of 18%. However, a more positive trend was seen during the second quarter which saw higher growth in NII underpinned by improved NIM and higher growth in loan volumes. Core non-fund based income recorded a growth of 13% which narrowed to 4% due to unfavourable impact arising from foreign exchange funding SWAPs. Cards, trade and customer FX contributed well towards the growth in core fee based income. Further, the impact arising from the FIS portfolio on net trading positions was minimal for the period under review.

Impairment charges recorded a 55% decrease mainly on account of individual impairment, with collective impairment also showing an improvement across most of the portfolios. Significant drop in individual impairment is mainly due to a one-off provision made on account of specific facilities in the previous period.

Expenses recorded a growth of 13% as the current period witnessed a higher proportion of investments being made towards technology, people and branding which resulted in the underlying expenses increasing fairly rapidly over the previous period. Bank introduced the Life Cycle Training concept for all managers and banking assistants during the year aiming to enhance their soft skills, ethics, compliance and functional knowledge with the expectation of completing the full training for their respective grade within a period of two years. This initiative will allow staff to acquire necessary skills & competencies to move to the next job grade and a significant amount of resources have been deployed to make it a success. Cost management initiatives coupled with the implementation of lean concepts across the organization has assisted in rationalizing expenditure and minimizing increases over previous year in some of the key cost lines. The increase in the Cost: Income ratio for the current period is mainly owing to the slow growth in revenue as a result of the narrowing NIMs. The Cost: Income ratio is expected to trend down in the 2H of the year with higher revenue growth driven by stabilizing NIMs, enhanced volumes coupled with a more evenly distributed operational expenditure base. Bank is committed towards driving its Cost: Income ratio below 50% in the medium term.

SME loan portfolios recorded an impressive growth of 17% for the first half, however contraction in the corporate book coupled with a subdued growth in the leasing portfolio moderated overall loan book growth for the Bank to 6%. The pending disbursements in the corporate book are expected to boost the loan growth in the ensuing quarter. Similarly, in tandem with the loan book growth deposits too recorded a growth of 6%. Mobilization of term deposits took the forefront as CASA growth slowed down with a notable shift from low cost to term deposits seen partly due to increasing interest rates. Bank continued to focus on CASA acquisitions and promotions across the branch network to build volume.

The capital position was sound at Rs. 15.5Bn with Capital Adequacy Ratios both at Tier 1 and 2 maintained at comfortable levels. ROE recorded a drop over the level reported previously due to the narrowing of NIMs. The Bank has consistently posted above industry average returns in the recent past.

### Review of Operations

#### Consumer

Kandy City Centre Branch was opened during the year with 3 additional off-site ATMs thereby expanding the Bank network to 93 branches and 135 ATMs to provide unparalleled customer experience across the geographies. Consumer deposits surpassed Rs.100Bn recording a YoY growth of 19%. Growth was supported by the launch of the Inner Circle product proposition for the salaried segment, which allows customers to make the most of their salaries and enjoy special benefits. “Nations Cruise” propaganda bus was rolled out to support effective customer acquisitions and geographic penetration. Nations Home Centre was opened to cater to the housing loan requirements of customers under one roof.

#### SME

The Bank continued to strengthen the on-going support for the growth and development of SMEs in the economy as SME loan portfolio reached Rs.33Bn, recording a significant growth of 17% in the first 6 months. Sixteen road-shows and ten business seminars were conducted at various locations which allowed the Bank to acquire new relationships, provide business advice and enhance customer engagement levels.

#### Leasing

New business volumes reached Rs.7.6Bn for the first 6 months amidst a challenging interest rate environment. Alternate avenues for customer acquisition were explored with good responses coming from branches and consumer sales teams. Salaried and professional lease product was revamped to give added flexibility to the customer. Leasing

business also partnered successfully for a number of road-shows and campaigns during the year.

### Corporate Banking

Corporate Banking revenue improved significantly during the period due to better management of NIM and enhanced fee income despite the loan book recording a contraction for the period. Initiatives were taken to expand wallet share across large corporates which is aptly mirrored in the revenue growth for the period. Unit conducted an international trade seminar to existing and potential customers, covering important aspects of international trade. A Corporate internet banking portal inclusive of a cash management solution is expected in the forthcoming quarter which will undoubtedly add value and further strengthen the customer experience.

### Treasury

Challenges ensuing from increased market interest rates and the depreciating rupee during the year were well managed by Treasury. Unfavourable M2M impact on the FIS portfolio for the current period was minimal compared to the previous period. Improved customer centric focus and market volatility also contributed to the improved customer FX recorded for the period.

### Digital Channels

Bank rolled out Cash Deposit Machines (CDMs) in 11 locations giving customers immediate credit on deposits made to the account without the hassle of having to wait in queues. The Bank opened the second smart branch in Kandy city to offer a range of superior digital banking facilities. The first digital acquisition program on Social Media was carried out with the re-launch of the Inner Circle for salaried segment.

### Lean

The inaugural Lean Yellow Belt training was launched in the 1st half of 2016 with the aim of doing more with less. The first batch of participants successfully completed the training by implementing Lean projects which will eliminate waste and create value to our customers. Several branches and departments commenced the implementation of 5S with the objective of improving the productivity, quality and safety.

### Looking forward

It has been a very challenging first 6 months for the Bank, particularly with the narrowing of net interest margins impacting its core fund base income. As the Bank

become a larger player in the industry reaching out to a larger market segment, narrowing of NIMs is inevitable. Also as an industry, Banking is now gradually moving to a low NIM

environment hence the immediate impact comes as no surprise, nevertheless significant when comparisons are drawn against the previous period. The Bank remains undeterred in its quest to build market share on assets, focusing on industries and geographies that the Bank wants to become relevant in. With customer centricity at the core of all its dealings, the Bank is quite optimistic of achieving its goals set for the year.
