1.3 Estate Planning Services

Estate planning involves planning for how an individual's assets will be preserved, managed, and distributed after death. It also takes into account, the management of an individual's properties and financial obligations in the event that she/he becomes incapacitated. Assets that could make up an individual's estate includes houses, cars, stocks, paintings, life insurance, pensions, and debt. Individuals have various reasons for planning an estate, such as preserving family wealth, providing for surviving spouse and children, funding children and/or grandchildren's education, or leaving their legacy behind to a charitable cause

As such, to accomplish your life goals our external panel of experts in the field are geared to offer you the following services:

- Preparation and execution of a last will or codicil
- Preparation of the last will which creates a trust over the property of the testator
- Preparation of a deed of gift

Note: The Nations Trust Bank PLC will only introduce you to the specialized estate planning law firm and shall not be held responsible for advice or services rendered by the firm.

1.4 Art Advisory Services

With concerns about market volatility, high-net-worth clients may be seeking assets that offer unconventional ways to earn a profit, hedge against inflation or diversify their portfolios. Such clients may look into alternative assets. Out of which, 'Fine art' as an alternative investment can provide safety from market volatility. That is because prices in the art market do not usually correlate

with the performance of the stock market or other. As such, at Nations Trust Private Banking, we have an 'Art Advisory Service' tailor-made to offer a myriad of services to enrich your passion. Because art is a love of the creative and a passion for most.

- Advice on acquisition and sales of all categories of Sri Lankan and South Asian Art
- Art collection assessment to determine retention of deaccession strategy
- Artwork authentication, appraisal, investigation of provenance and condition
- Client representation during private negotiations and auctions
- Arranging for site-specific commissioned artworks
- Framing service, including reframing to refresh a collection
- Archiving of collection, providing client with a coffee table book of their collection including information and provenance of works
- Transportation, delivery and installation of artworks (for work acquired through Saskia Fernando Gallery)

Note: The Nations Trust Bank PLC will only introduce you to the specialised Art advisory firm and shall not be held responsible for any advice or services rendered by the firm. Also note that alternative investments such as Arts are highly illiquid assets, meaning as there is no centralised market place (i.e. stock exchange) you may not be able to dispose the asset over the counter.
